

BODY SATIN™

Melaleuca strives to provide our customers with the best personal care products. In order to do this, we focused our efforts and created Body Satin™—one great line of new and improved women’s bath and body products.

Soothing botanicals like blue lotus flower and white tea work in harmony with superior moisturizers like Pentavitin® (known as the “moisture magnet”) and ButterSilk™ (our exclusive blend of shea, mango, and cocoa butters) to nurture and hydrate your skin from head to toe. With improved formulas and naturally derived ingredients, you’ll simply love *Body Satin*.
